This content was run through AssuredAI's compliance pipeline on May 16, 2026 at 4:04 PM. The hash chain at the bottom of this document cryptographically links the audit entry to every prior verification — back to the genesis record.

Audit #64 | Scenario: healthcare | Latency: 5,479ms

VERIFIED ARTICLE

A power of attorney (POA) is a written authorisation that lets one person — the agent — act on behalf of another — the principal — in legal or financial matters. POAs come in several forms (general, limited, durable, and healthcare) and the specific rules vary by state. The principal may revoke a POA at any time while they have legal capacity to do so. This content is for general informational purposes only and does not constitute legal advice. Reading this material does not create an attorney-client relationship. Consult a qualified attorney about your specific situation.
